Summary

I am a second-year B.Tech CSE student at Vidyalankar Institute of Technology, Mumbai (Batch 2024–2028), with a strong interest in Web Development, AI/ML & UI/UX Design. Currently learning Data Structures and Web Development through self-study. Seeking internship opportunities to apply my knowledge, gain industry experience, and grow as a developer.

Education

2024 - 2028

VIDYALANKAR INSTITUTE OF TECHNOLOGY
2nd Year •B.Tech • Computer Engineering
CGPA - 8.69

Certification

Postman API Fundamentals

Completed a 1-day intensive workshop on API fundamentals conducted by LetsUpgrade in collaboration with NSDC and ITM Edutech. Gained hands-on experience using Postman to build, test, and document APIs efficiently.

GEN AI Study Jam 2024

I completed a month-long GenAI Study Jam by Google Developer Groups (On Campus • VIT), earning 15 skill badges and hands-on experience with Generative AI from 1st Oct to 1st Nov 2024. This certification enhances my educational foundation and analytical skills for effective AI-driven solutions.

Skills

- HTML
- CSS
- C
- Python Basics
- JavaScript

Projects

Train Ticket Reservation System

📅 Apr 2025 – Jul 2025

🔗 Project Link

The Simple Train Ticket Reservation System is a Java project utilizing Object-Oriented Programming principles to manage ticket bookings, allowing users to search for trains, reserve seats, and view their travel details efficiently.

Online Tiffin Management System

📅 Apr 2025 – Apr 2025

The Online Tiffin Management System is a C language-based application designed for tiffin center managers in Mumbai, enabling seamless operations such as viewing the weekly menu, placing orders, managing all orders, and updating dishes efficiently using data structures and algorithms.
